

"The Trill are a joined species. A host and a symbiont, and in this fashion we have survived for millennia."

The Trill are one of the most interesting species in *Star Trek* lore, and *Equilibrium* is all about the most famous Trill: Dax! Originally born in 2181, Dax has been hosted by nine official hosts (and two extra), and these nine (9) new *First Edition* cards are all about Dax. From Lela, the first Dax host, to Jadzia's wedding to Worf, you'll find cards covering the spectrum of the lives of Dax. Celebrate the Trill with *Equilibrium*, available now from The Continuing Committee!

Will of the Collective — *Equilibrium* features Joran, the most recent card designed as part of the Will of the Collective. This collaborative design process has the community making almost every decision (by popular vote) about a card's design. Joran appears here after having been made entirely by the community, then tested by our hard working playtesters. Stay tuned to our front page for more information about future Will of the Collective opportunities!

Coming Soon — Get ready to return to where *Star Trek* began! You'll go home to where space monsters roam and the hippies and androids play. Will you take the helm of the legendary *Starship Enterprise*, who's mission of exploration cannot be caged? Or will you attempt to stand in her way? The Final Frontier awaits you in the first expansion in the Original Series Block, coming in early 2019!

The Continuing Committee is dedicated to not only maintaining the *Star Trek: Customizable Card Game* community and the levels of competition, but exceeding them in scope and in quality.
